Source: National Transport Research Center (NTRC)

* : The Data includes existing as well as planned motorways, like Sukkur-Hyderabad

** : The Data includes existing and under construction motorways

Note: Previously, NTRC was collecting and providing data on road length with the classification of High Type (metalled roads/ asphalt/ cement roads) and Low Type (all unmetalled roads, like shingle, earthen hard tracks). NTRC has conducted a study of Digitization of Road Directory in the country to develop a Geo-database through digitization of roads by integration of road features/ attributes. On the basis of this Digitization of Road Directory, the road length has been calculated at 501,424 km in all provinces, AJK and GB with more wide classification of Roads.
